

SOL DS18 is a water-dispersible defoamer widely used in industrial production, chemical, oilfield and other industries.

Typical Characteristics

Parameter	Specification
Appearance	Milky white liquid
Specific gravity	0.95 – 1.05
Water solubility @ 25°C	Dispersible in water
pH @ 5% solution	6 – 8

Application

- Effectively prevents and inhibits the occurrence of drilling foam
- Good compatibility in stabilizing various water-based mud systems

Packaging and Storage

SOL DS18 is packaged in 25 L drum and 200 L drum.

Store in dry, well-ventilated area. Keep container closed. Keep away from heat, sparks and flames. Store away from incompatibles. Follow safe warehousing practices regarding palletizing, banding, shrink-wrapping and/or stacking.

Recommended Handling

All personnel handling this material must handle it as an industrial chemical, wearing protective equipment and observing the precautions as described in the Safety Data Sheet (SDS).
