

TECHNICAL DATA SHEET

OCLAP

OCLAP is a biodegradable oil cleaning agent formulated from a curated blend of surfactants and natural extracts. Engineered for superior cleaning performance, it effectively penetrates, emulsifies, disperses and lifts heavy oil deposits with high wax content. Designed for demanding upstream operations, OCLAP delivers powerful cleaning of oil contamination and composite fouling while maintaining environmental responsibility and operational efficiency.

Typical Characteristics

Parameter	Specification
Appearance	Colourless to light yellow liquid
Odour	Odourless
pH	5.0 – 9.0
Corrosiveness	N/A
Toxicity	N/A

Application

- Used for the cleaning of drilling mud residue and oil film on wellheads, metering room, laboratory instrument and other contaminated equipment
- Shake well before use and spray onto the contaminated area, followed by manual spray washing and brushing

Packaging and Storage

OCLAP is packaged in 500 mL bottle.

Store in dry, well-ventilated area. Keep container closed. Keep away from heat, sparks and flames. Store away from incompatibles. Follow safe warehousing practices regarding palletizing, banding, shrink-wrapping and/or stacking. Avoid using rubber (natural or synthetic) as packaging materials.

Recommended Handling

All personnel handling this material must handle it as an industrial chemical, wearing protective equipment and observing the precautions as described in the Safety Data Sheet (SDS).
